

CURRENT THERAPEUTIC RESEARCH

CLINICAL AND EXPERIMENTAL

Global Theme Issue on Poverty and Human Development CALL FOR PAPERS

Submission Deadline: September 1, 2007

The goal of this special issue is to address topics that focus on the clinical aspects of medicine and health from a global perspective.

Topics of interest include:

- Community-based HIV/AIDS research and development
- Drug-resistant tuberculosis
- Bioequivalency trials of generic antiretrovirals
- Vaccine development, use, and associated implementation costs
- Dengue fever or dengue hemorrhagic fever
- Avian influenza
- Hepatitis
- Malaria
- Research ethics
- Emerging issues in global drug therapy

Original research, review articles and case studies addressing and/or related to any of the subject areas are welcome from authors. All papers will undergo the journal's peer-review process.

Author instructions are available at
<http://www.currenttherapeuticres.com/ifa3.html>

Submitted papers should not have been previously published or be under consideration for publication elsewhere.

Please include the title of the special issue as the subject of your submission.

Submit manuscripts to: CurrTherRes@elsevier.com
